JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Industrial Insurance in the United States

By CHARLES RICHMOND HENDERSON

THIS book, revised and enlarged for the English-speaking public, has already been published in a German series. The introduction contains a summary of the European laws on workmen's insurance against accident, sickness, invalidism, and old age, with statistics to 1908. The text describes the various forms of social insurance known in the United States and Canada; local clubs and associations, fraternal societies, trade union benefit funds, schemes of large firms, corporations, and railways. One chapter is directed to labor legislation and another to employer's liability laws. Illustrations of the movement are given in chapters on municipal pension plans for policemen, firemen, and teachers; also the military pensions of the federal government and southern states. The appendix supplies bibliography, forms used by firms and corporations, text of bills, and laws on the subject.

Would You Be Interested?
If a man came to your desk and
showed you a pen or pencil that
would add or subtract as it writes?

Of course you would; anybody would!

We have no such pen or pencil, but we have something better. We have a typewriter which does all this, and you know that the typewriter is three times as fast as any pen or pencil. This typewriter is the

Remington Adding and Subtracting Typewriter

(Wahl Adding Mechanism)

This machine adds or subtracts and writes not only that but it adds or subtracts when it writes. Both operations are one.

You need the machine in your work; every man needs it who has bills to do, or any writing and adding to do on the same page. It saves time, saves labor, detects errors, prevents errors, gives you a mechanical insurance of absolute accuracy.

We stand ready to give this machine a test on your work; a test which will convince you that you need it.
